

Primary & Comfort Heating For All Types of Floor Covering

Tiles • Laminate • Carpets

- Imagine your cosy warm toes on a frosty morning.
- Heats faster than any other Underfloor heating system.
- Perfect solution for home renovation as well as for new buildings.

Can be installed **directly** in the tile adhesive, under the carpet or under the laminate floor.

Electric Underfloor heating for Ceramic Tiles, Terracotta and Natural Stone flooring - affordable luxury for your feet!

Living Heat

Easy as 1,2,3!

1. Lay the mat onto the sub-floor and hold in position with adhesive tape.

2. Connect to the thermostat.

3. Fix tiles directly over mats using flexible tile adhesive.

"optional grounding nets are recommended for some locations - see installation guide"

Combine the following mat sizes to cover the floor area of your room

Length (mm)	1000	2000	3000	4000	5000	6000
Width (mm)	500	500	500	500	500	500

Length (mm)	1000	2000	2500	3000	4000
Width (mm)	1000	1000	1000	1000	1000
